

Custom accessories to meet your animal research needs

ACS Bulk Cart

C79345

Animal Care Systems is pleased to announce that our transport/storage cart is now available for order. It's designed for moving large numbers of our cages at once, but can easily transport other bulk loads. With an all-stainless steel, welded construction and high-temperature, 5-inch casters, it is autoclavable and sturdy enough for long-term, severe service. At 72" long and 31" deep, the completely open side allows for easy loading of up to 400 OptiMICE cages or 128 OptiRAT cages. The cart floor is slightly inclined inwards to further stabilize tall cage stacks. Weight is 175 pounds.
